Kind Attn: Mr. Rashesh Joshi

To Whom So ever It may Concern

We had purchased Energy Management System from Gloabtel Convergence Ltd. in the year of...2009..... The system is installed on 20 energy meters of different make at Paper plant and data is collected on centralized server. The reports are generated based on the format we provided. The system took little more than required time to implement. However we appreciate Gloabtel's effort for customizing the system and report to meet our complex requirement.

Energy Management System has helped for online monitoring, analysis, fault finding and report generation. We thank Gloabtel for their efforts for developing system based on our requirement and providing continued support.

Thanking you,

N.R.Agarwal Ind.Ltd
